

Thomas Etter

EXPERIENCE

Virginia Beach Aquarium, Virginia Beach — Guest Engagement Admissions Host

Fall of 2024 - Current

Working at an aquarium to engage with guests to have a great experience. Pay attention to dates and times on a ticket to make sure that guests have valid tickets for the aquarium.

Ocean Breeze, Virginia Beach — Lifeguard Camp Counselor

June 2024 - August 2024

Worked to teach rising 3rd through 8th graders the skills that lifeguards are trained on.

Ocean Breeze, Virginia Beach — Seasonal Lifeguard

Summer of 2020 - Summer of 2024

Working at a water park over 5 summers as a seasonal lifeguard to scan and vigilantly scan the water to prevent water accidents

EDUCATION

Landstown High School, Virginia Beach— Advanced Diploma

September 2017- June 2022

Attended Landstown High School for 4 years and graduated with an Advanced diploma from the Landstown Governor's Stem Academy

EXPERIENCES

Chemistry Lab

- In my chemistry lab my freshman year of college, we had to follow specific procedures when we were conducting the lab safely. I would have to follow the lab procedures in order because if the directions said to do it a specific way and it was not done in a specific way, you could be putting lives at risk of injury

SKILLS

Microsoft Word

Microsoft Powerpoint

Microsoft Excel

Microsoft Office

Google Workplace products

Leadership

Communication skills

Computer skills

Proficient in Javascript

First Aid

CPR

Understand conversational Spanish

Attention to important details

AWARDS

Eagle scout was awarded in September of 2021

Microsoft Office certifications

Member of the Spanish Honor Society (2 years).

LANGUAGES

English (15 years)

Spanish (5 years)

Javascript (3 years)

Coding

Python (1 year)

- Coding for me has shown me that paying close attention to details is a big thing in the real world since the tiniest mistake will make all of the code fail. When all of the code fails, you have to manually search all of the code to find the error. The error could be as small as misspelling a variable or as big as not defining a variable.

C# (1 year)

Lifeguarding

- When I was a lifeguard for a water park, lifeguarding had a big impact on whether or not you could notice tiny details and respond in a swift manner. As a lifeguard, I had 10 seconds to scan my entire pool of water and if I saw someone struggling, I had a maximum of 20 seconds to respond and get to the struggling swimmer.
- When I was a lifeguard, I was also CPR trained. One of the things you are looking for on an unresponsive guest is the chest rising or falling which indicates that the guest is breathing. Another thing you are looking for is a pulse beneath your fingertips. That's a very important thing to be looking for in a guest.
